Finance & operations profile: I find the bottleneck, put a number on it and fix the process. Nova SBE MiM (#2 FT 2026).

EDUCATION

Nova School of Business and Economics — MSc in Management (MiM) **Aug 2026 – Jan 2028**

- Ranked #2 globally in the Financial Times Masters in Management ranking 2026
- Coursework: Strategy, Advanced Financial Management, Financial Statement Analysis, Investments, Statistical Analysis
- Strategy group project: building a 2027–2031 strategic plan for Aena with a five-person team

Università Cattolica del Sacro Cuore — BSc in Business and Market Economics **Sep 2022 – Nov 2025**

- Thesis: “Startup and innovation in the music industry: the AB Vision case”, a business plan built on Porter's five forces, market sizing and a cohort model

Saint Paul Lutheran High School — Exchange year, Missouri, USA **Sep 2020 – Jun 2021**

- Met the requirements for the American high-school diploma; Varsity Wrestling and Varsity Cross Country

WORK EXPERIENCE

Kolme (Computer Gross Group) — Finance & Treasury Operations Intern **Jan 2026 – Jul 2026**

- Mapped Finance's recurring manual work and automated 11 processes in Python (SAP, e-invoicing, payments, bank and factoring), sizing the impact at 380–780 hours a year (0.25–0.45 FTE)
- Built DSO/DPO monitoring and receivables-aging dashboards that senior management used to prioritise recovery
- Drove adoption: a local dashboard non-technical colleagues run themselves, a Python workshop for the team and a documented handover

AB Vision Music — Financial Controller & Board Member **Sep 2024 – Mar 2026**

- Built the finance function of a small agency: deal pipeline, daily cash calendar and a three-calls-a-week routine with the CEO, cutting payment delays by ~30%
- Ran a capacity analysis by service line: the team was booked for 297 of 560 hours, yet one line sat at 100%; the constraint was one bottleneck, not headcount
- Modelled cost to serve by client tier to set pricing, then optimised the client mix: +22% monthly contribution with the same team hours
- Wrote the business plan, ran monthly board reporting and the hiring pipeline, and left an operating manual for my successor

SANGI — Strategy support, Footwear Observatory **Mar 2025 – Mar 2026**

- Strategic consulting and administrative support: business planning and market analysis for the Footwear Observatory, now live in beta

LEADERSHIP & ACTIVITIES

Nova Skills Association — Operations Team **Sep 2026 – Present**

- Organising four speaker events for Nova students: AI as a tool, marketing, writing an academic paper, time management

Rowing — Canottieri Milano (2019 – 2020, 2021 – 2022) · Nova Rowing Club (2026 – Present)

- Three sessions a week in a discipline-focused youth programme; won my first official race on Milan's Naviglio canal
