Finance-minded builder: I automate finance work in Python and ship products on my own server. Nova SBE MiM (#2 FT 2026).

EDUCATION

Nova School of Business and Economics — MSc in Management (MiM) **Aug 2026 – Jan 2028**

- Ranked #2 globally in the Financial Times Masters in Management ranking 2026
- Coursework: Statistical Analysis, Strategy, Investments, Advanced Financial Management, Financial Statement Analysis

Università Cattolica del Sacro Cuore — BSc in Business and Market Economics **Sep 2022 – Nov 2025**

- Thesis: "Startup and innovation in the music industry: the AB Vision case", the business plan of the startup where I was Financial Controller

Saint Paul Lutheran High School — Exchange year, Missouri, USA **Sep 2020 – Jun 2021**

- Met the requirements for the American high-school diploma; Varsity Wrestling and Varsity Cross Country

WORK EXPERIENCE

Kolme (Computer Gross Group) — Finance & Treasury Operations Intern **Jan 2026 – Jul 2026**

- Shipped a Finance Automation Platform: 11 Python scripts bridging SAP S/4HANA, the national e-invoicing system, a payment provider and bank and factoring files, run by non-technical colleagues from a local web dashboard
- Sized the impact process by process: 380–780 hours of manual work removed a year (0.25–0.45 FTE)
- Designed and ran a Python workshop for Finance colleagues; handed over with script-by-script documentation

AB Vision Music — Financial Controller & Board Member **Sep 2024 – Mar 2026**

- Built the finance and operations of an early-stage startup from scratch: Apps Script deal pipeline and daily cash calendar, cutting payment delays by ~30% across ~20 artist clients
- Sized the market (~30,000 emerging artists, 5,000–8,000 buying services, 250 reachable) and built a cohort model for churn and acquisition
- Ran hiring (~100 applications, three pipelines, a 72-hour work-sample test on a weighted rubric) and built the company website with the team

PROJECTS

Balderdash — co-builder · balderdash.it **2026 – Present**

- Lyric-video engine for labels: transcribes a track, syncs lyrics word by word and renders vertical videos for TikTok, Reels and Shorts (Python, Flask, Supabase, n8n, FFmpeg)

Job Radar — Python, Postgres, n8n, Gemini **2026 – Present**

- Polls the job boards of 107 companies across nine ATS platforms and scores new postings with an LLM for fit

RossettiLab — self-hosted infrastructure **2026 – Present**

- Hetzner VPS I administer (Docker Compose, Caddy, n8n, Postgres) hosting all my projects, a nightly habit-data pipeline and edoardorossetti.eu

LEADERSHIP & ACTIVITIES

Nova Skills Association — Operations Team **Sep 2026 – Present**

- Organising four speaker events for Nova students: AI as a tool, marketing, writing an academic paper, time management

Rowing — Canottieri Milano (2019 – 2020, 2021 – 2022) · Nova Rowing Club (2026 – Present)

- Three sessions a week in a discipline-focused youth programme; won my first official race on Milan's Naviglio canal
